

SML电感器
INDUCTORS**特点 FUTURES**

SML 公司生产各类型的高频变压器，共模电感器，R 型电感器，工字型电感器以及磁环电感器，品质优秀，价格极具竞争力。

SML Co., Ltd produce many kinds of high frequency transformers, common mode chokes, club-shaped inductors, I-shaped inductors and magnetic ring inductors, SML offer you best quality and competitive price.

**LF 磁环共模电感器**

体积小，温升小，安装方便，频率范围宽，应用于各类电源的杂讯抑制。

LF Magnetic Ring Common mode choke

Small size, low temperature-rising, easy to mount, wide frequency range, mainly used as noise reduction for power supply systems.

**EE/EI 高频变压器**

尺寸齐全，客户定制，应用于电源，充电器，通用变压器

EE/EI High frequency transformer

Many kinds of size, customer design, mainly used in power supply systems, electronic adaptors, and normal transformers

**LGF R 型电感器**

铁氧体磁芯，低成本，高饱和电流，广泛应用于电源，功率放大器、开关电路的滤波，整流器和晶闸管控制电流，输出扼流圈等

LGF Club-shaped inductors

Ferrite core, low cost and high saturation current, mainly used in power supply, power amplifier, switch circuit, control circuit of rectifier and thyristor and output choke

**LGB 工字型电感**

小体积，分布电容小，自共振频率高，电感范围大，广泛应用电子镇流器，节能灯，UPS，EMC，家用电器等

LGB I-shaped inductor

Small size, small distributed capacitance, high resonance frequency. Mainly used in the electronic ballast, energy-saving light, UPS, EMC, Home appliance etc.

**TC 磁环电感**

高功率，大电流，高阻抗，主要用于不同的功率转换产品上

TC magnetic ring inductor

High power, high current and high impedance. Mainly used in power converters
